Yacht & Aircraft Service

Keeping the VIP flight experience safe!

Newsletter 09/2020

2020 aviation faced new challenges. In addition to the high demands of our customers for luxury, comfort and safety, the aspect of health is now moving into focus. To continue meeting these requirements in the best possible way, we must now ensure not only a clean but a disinfected interior.

What is the difference between cleaning and disinfection?

Cleaning is about removing contamination from a surface, but disinfecting is about killing pathogens coronavirus.

High demand! - Disinfection of high quality surfaces?

Leather seats, wool carpets, plated surfaces, silk, and granite – these high-quality materials in VIP aircrafts are a challenge for cleaning and disinfection themselves. It quickly becomes clear that

Recommendation - Aircraft Coronavirus Disinfection

It is essential to provide a hygienic environment for passengers. Aircraft coronavirus disinfectant service for is now a global gold standard of cleaning for aircrafts due to the current outbreak of COVID-19.

Following the latest EASA recommendations (*Guidance on Aircraft Cleaning and Disinfection in relation to the SARS-CoV-2 pandemics*) we offer you a professional aircraft disinfection.

it will not be possible to disinfect all surfaces with the same cleaning agent. It is, therefore, necessary to exercise caution in selecting suitable products and before applying these products in aircraft. We must consider both the nature of the material and the preservation of the flame protection. Therefore, the manufacturer's specifications for the individual materials are particularly important.

Which areas are affected?

Especially areas where food is prepared, stored, and served, surfaces frequently touched by passengers and lavatories should be cleaned and disinfected with special attention.

Key Areas of Aircraft Disinfection

Aircraft Aisle: Ceiling, reading lights, air outlets, sidewall panels, windows, seats (tables, armrests, passenger control units, decorative panels), cabinets/lockers, bulkheads, magazine racks, cabin attendant seats.

Aircraft Lavatory: Toilet bowl, waste bins, basins, lavatory sidewall, ceiling, door assembly (door surfaces, door knobs).

Aircraft Galley Disinfection: Ceiling, ovens, water boilers, coffee makers, galley facilities, lockers/drawers, waste bin
